

HITEN MANDHYAN

Full Stack Developer | AI & Data Applications

hitenmandhyan124@gmail.com | [linkedin.com/in/hiten-mandhyan](https://www.linkedin.com/in/hiten-mandhyan) | Delhi NCR, India

SUMMARY

Full-Stack Developer with expertise in building end-to-end web applications using Python, JavaScript, Node.js, Flask, and SQL. Experienced in designing scalable backend systems, relational databases, and REST APIs for real-world applications in healthcare and analytics. Proficient in integrating intelligent features including real-time focus detection using MediaPipe and machine learning-based digit recognition. Strong background in data processing, visualization, and problem-solving with proven ability to deliver practical, user-centric solutions.

EDUCATION

Christ University

Bachelor of Computer Applications / CGPA: 8.92/10.0

Delhi NCR, India

Jul 2024 – May 2027

Central Board of Secondary Education

Higher Secondary Certificate (Science) / Percentage: 84%

Prayagraj, India

May 2024

St. Joseph's College

Secondary School Certificate (ICSE) / Percentage: 94%

Prayagraj, India

May 2022

EXPERIENCE

Early Edge

Web Development Intern

Chennai, India

May 2025 – Jun 2025

- Developed and deployed a responsive, performance-optimized company website, enhancing digital presence and improving user engagement across devices
- Designed and implemented dynamic UI components and structured financial content pages using modern web technologies, ensuring scalability and maintainability
- Collaborated with cross-functional teams to translate business requirements into functional web features, optimized load times, and implemented best practices for SEO and accessibility

PROJECTS

Smart Study Mate – AI-Based Focus & Study Tracking System

Sep 2025 – Nov 2025

Python, Streamlit, MediaPipe, Face Mesh, OpenCV, JSON

- Developed an AI-based study tracking system that detects user attention in real time using MediaPipe Face Mesh and computer vision
- Implemented attention scoring based on face presence, eye openness, and head orientation
- Integrated Streamlit backend to track sessions, focus percentage, and learning analytics
- Stored session data and focus metrics using structured JSON-based persistence

Handwritten Digit Recognition System

Mar 2025 – Mar 2025

Python, TensorFlow/Keras, NumPy, Matplotlib

- Built an interactive application that allows users to draw digits and receive real-time predictions using a neural network model
- Trained a Neural Network on the MNIST dataset for handwritten digit classification and evaluated performance using accuracy metrics and confusion matrix
- Integrated a TensorFlow model with real-time preprocessing to generate instant digit predictions with confidence scores

AI Data Analyst Dashboard

Jan 2026

Python, Flask, Pandas, Matplotlib, HTML, CSS, JavaScript

- Built an AI-powered analytics dashboard capable of processing large datasets and generating automated visual insights
- Designed a Flask-based backend pipeline to process uploaded datasets, perform automated data cleaning, and generate visual insights
- Implemented data cleaning and transformation using Pandas and generated analytical visualizations using Matplotlib

HealthVerse – Health & Fitness Tracking System

Jan 2025 – Mar 2025

HTML, CSS, JavaScript, Firebase, Firestore

- Developed a responsive health web application using HTML5, CSS3, and JavaScript with real-time data synchronization
- Implemented secure authentication and profile management with Firebase
- Implemented backend integration with Firebase APIs to handle authentication, user data storage, and real-time health metrics updates

UP Tourism Website

Sep 2024 – Nov 2024

HTML, CSS, JavaScript

- Developed a multi-page website highlighting cities like Varanasi, Lucknow, Mathura, and Ayodhya with images and descriptions
- Designed a user-friendly layout using HTML5 and CSS3 for smooth navigation and integrated a chatbot to assist users

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C/C++, SQL

Frontend: HTML, CSS, JavaScript

Backend: Flask, Node.js

AI / ML: TensorFlow, Keras, Scikit-learn, NumPy, Pandas

Computer Vision: OpenCV, MediaPipe, Pillow

Databases: MySQL, MongoDB, Firebase

Tools: Git, GitHub, VS Code

KEY ACHIEVEMENTS

- **Merit Scholarship Awarded:** Received merit scholarship for academic excellence and extracurricular achievements
- **WordPress Site Management:** Managed and maintained the CAPS committee WordPress site, increasing traffic by 45%
- **University Placement Cell Member:** Contributed to university placement efforts, assisting in student placements
